

Nomination Application Questions

List your current professional responsibilities. (Please be sure to highlight any financial, writing, communication, leadership, etc. responsibilities where possible).

I own and operate a busy independent LNC practice. I retain subcontractors and am responsible for the quality of the reports that are

produced by my office. I've been on the AALNC BOD for many years and have been deeply involved in moving our organization forward.

How would you add value to the Leadership Succession Committee?

I've been a member of AALNC since 2010 and have been volunteering for AALNC just as long. I spend a lot of time advocating for AALNC on social media and I know many, many LNCs who can bring a lot to this organization on a leadership level.

What is your vision for AALNC and the legal nurse consulting profession?

I would like AALNC to be the first name on every attorney's mind when considering who can assist them with their cases. I'd like to see AALNC have 2,500+ members and such a robust Forum that vendors are competing to support our organization and conference.
